# CHANGING DIGITAL MANAGEMENT. multiple SIGNS at a time.

Gone are the days of designing paper posters, sending them off to your printer, waiting for them to get printed, packaging them up and sending them to individual retail locations.

Did we mention hoping they don't get destroyed enroute and are then put up in a timely manor to ensure your customers see the latest product offerings?

Whew. That's exhausting.

## CHANGING TV.

### one remote at a time.

We live in a world of streaming and instant gratification. Right or wrong your clients are demanding it from you.

infiniT is shaking up the industry by creating app-based entertainment at a low-cost basis with PinPoint™ messaging down to the door.

Yep, we do that.
